

Meet Kim

I am a Master's level, Registered & Certified Physician Assistant. I graduated from SUNY Downstate Medical School and I have over 20 years of comprehensive medical and surgical experience. I also attended the School of Visual Arts in New York City, where my undergraduate coursework as a Fine Art major provided the framework essential to my aesthetic vision. In my 20 year career I have worked with numerous plastic surgeons, physicians and aesthetic professionals, who rely on me to care for their patients and clients.

I trained at the internationally acclaimed Beau Institute of Permanent & Corrective Cosmetics in 2008, where I received a comprehensive education in the art of medical, corrective and cosmetic micro-pigmentation. I am also a board Certified Permanent Cosmetic Professional by the Society of Permanent Cosmetic Professionals. My extensive education coupled with my exceptional visual talent provide my patients with not only the highest quality medical services, but the artistic perspective to create the most enhancing and positive outcome.
